

MARMOL RADZINER FABRICATION

ABOUT

Marmol Radziner Fabrication was opened in 1995 as an extension to Marmol Radziner Architecture. The shop operates from a 20,000-square-foot space in El Segundo, California, and currently employs over 40 craftspeople.

Our wood shop specializes in hand-crafted, custom cabinets for kitchens, baths, and built-ins for residential and commercial projects. We utilize a wide range of California Air Resource Board-compliant materials such as American walnut, rift-cut white oak, maple, teak, ash, and bamboo. We manufacture custom furniture pieces and can provide custom carpentry details such as paneling, interior doors, and trim. Additionally, we provide high-quality finishing services including stain, paint, oil, and lacquer.

Our metal shop focuses on metal and sheet metal fabrication and installation. We manufacture architectural elements such as handrails, custom pulls, hang rods, fixtures, door handles, fire grates, mailboxes, and custom steel doors and windows. Our sheet metal shop creates the highest quality sill and door pans, flashings, custom siding details, and brake metal trims. We also fabricate custom furniture pieces in steel, stainless, bronze, and other materials.
